Staff:

Tonia Steffey

Natural Resources Conservation Service Liaison to Council:

Gary McRae

On September 29th, 2009 our Dinosaurland RC&D Council was able to hold its 15th Annual Con Amore Fishing Day. The Con Amore school in Myton, Utah has over 150 mentally and physically challenged students, ranging in age from pre-school through 22 years of age.

Our RC&D, along with many other volunteers, local entities, and other government agencies, provide a fun day of outdoor activities for all of the students at the Con Amore School. We take the children out to a local pond, generously stocked with fish, and assist the children in catching as many fish as they can. Other activities include a petting zoo, a streambed trailer, a coloring booth, face painting, an Ambulance for the kids to see, Smokey the Bear, wood cookie necklaces, and of course a yummy sloppy joe lunch. The National Guard usually brings one of their big trucks as well, for the kids to play in.

We have over 250 volunteers that assist with this event. Con Amore Fishing Day gives these students a chance to experience outdoor activities that normally, they would never get to do. We look forward to continuing this adventure for many years to come.

The Dinosaurland RC&D Council is an equal opportunity provider and employer.
