Day-Trip Planner

The Nebraska Loess Hills RC&D Council designed, authored and printed a Day-Trip Planner for the six counties served by the RC&D Council. The Day-Trip planner provides ideas and planning assistance for day trips in and near the Nebraska Loess Hills RC&D area.

The comprehensive twenty six page planner includes many different types of recreational and tourism opportunities including information about area events and attractions, birding, antiquing and flea markets, casinos, wineries and restaurants, lodging and camping, and a guide to travel and service oriented businesses.

Recognizing that an increasing number of travelers utilize the internet for trip planning, the Council made the Day-Trip Planner available online via the Council website in 2009. The printed guide continues to be available free of charge to anyone who requests it or visits the Council office. Plans are being made to update the guide in 2010.

The Nebraska Loess Hills RC&D Council developed a Day-Trip planner to promote recreation and tourism in the area it serves.
