**Project Title:**

Determining Feasibility of a Mixed-Feedstock Food and Ag Waste Digester.

Northeast Colorado RC&D received a \$25,000.00 grant from the Colorado Department of Agriculture's "Advancing Colorado's Renewable Energy (ACRE) program. This grant proposal was just selected for funding in December 2009.

**Project Title:**

In-service Training and Decision-Making Tools for Optimizing Livestock Mortality Management.

This is a 3 year WSARE grant that the NE Colorado RC&D is a contributing partner in and Colorado State University is the primary PI. Other partners include: New Mexico State University, Montana State University, University of Wyoming and NRCS in all four states. The final products of this grant will be a manual and video in both English and Spanish. Train the trainer programs will be held along with developing fact sheets that can be placed in extension offices and NRCS offices.
