“Cove Fort Thistle Project, Sand Ledges Spray Day Thistle Project”

In May and June of 2010 the Cove Fort Thistle Project and Sand Ledges Spray Day were completed. Both projects were completed with help from Panoramaland RC&D, South Central Cooperative Weed Management Area (CWMA), and Millard CWMA.

The Cove Fort Thistle Project consisted of spraying thistle surrounding Cove Fort. This infestation of thistle stemmed from the Millard Flat Fire that occurred in the area a few years ago. There were 827 acres treated for Scotch Thistle under this project. This project consisted of many partners within the Millard County CWMA which include the Fillmore BLM, Fishlake Fillmore Ranger District, Millard County Weed Dept, Cove Fort Chevron, Panoramaland RC&D, and various private land owners.

The Sand Ledges Spray Day was also organized to spray Musk Thistle. Several agencies participated in this event that took place on about 200 acres of state lands.
